Procedure: Dust Mop area
Remove any stickers, labels or dried soil with scraper
Place wet floor signs.
Heavily mop areas auto scrubber can't reach with hi-alkaline cleaner in cool water, Mop areas auto scrubber can't reach with hi-alkaline Cleaner.
Hand scrub the mopped on areas with a stiff weighted brush and mop up with fresh water..
Apply hi-alkaline cleaner to center of floor with the Auto Scrubber with cool water.
Scrubber should be operated with heavy pressure, solution on and squeegee and skirt in up position.
After 5-10 min. dwell time, scrub the same area with the again with brushes down, solution on low and squeegee down with vacuum on.
When dry rinse floor with neutralizer to make pH level neutral.
Allow floor to dry than apply desired coats of floor finish.
(See finish application for details)
Remove wet floor signs after finish is dry.
